Attachments: [HH Risk Sum \(SI\) from BHHHRA long.docx](#)

Here is the more detailed version of the Southern Impoundment HH risk, WITH correct tables/figures from the BHHRA inserted. As we have been doing, they are highlighted n yellow so we'll know where to find them in the grand order of things.

I am also almost done with getting all the correct tables/figures plugged into the Nortern Impoundment section.

I have been compiling a separate pdf of just the suggested tables/figures. I will send that along soon as well. The separate, compiled, pdf I think will make it easier when inserting into the final document, and especially if they are all added at the end as an appendix or the like.
